Preliminary

Part A–Parties and land

Part B–Purchaser's cooling-off rights and proceeding with the purchase

Part C–Statement with respect to required particulars

Part D–Certificate with respect to prescribed inquiries by registered agent ☒

Schedule

Preliminary

To the purchaser:

The purpose of a statement under section 7 of the *Land and Business (Sale and Conveyancing) Act 1994* is to put you on notice of certain particulars concerning the land to be acquired.

If you intend to carry out building work on the land, change the use of the land or divide the land, you should make further inquiries to determine whether this will be permitted. For example, building work may not be permitted on land not connected to a sewerage system or common drainage scheme if the land is near a watercourse, dam, bore or the River Murray and Lakes.

The *Aboriginal Heritage Act 1988* protects any Aboriginal site or object on the land. Details of any such site or object may be sought from the "traditional owners" as defined in that Act.

If you desire additional information, it is up to you to make further inquiries as appropriate.

Instructions to the vendor for completing this statement:

☐ *means the Part, Division, particulars or item may not be applicable.*

> *If it is applicable, ensure the box is ticked and complete the Part, Division, particulars or item.*
>
> *If it is not applicable, ensure the box is empty or strike out the Part, Division, particulars or item. Alternatively, the Part, Division, particulars or item may be omitted, but not in the case of an item or heading in the table of particulars in Division 1 of the Schedule that is required by the instructions at the head of that table to be retained as part of this statement.*

* *means strike out or omit the option that is not applicable.*

All questions must be answered with a YES or NO (inserted in the place indicated by a rectangle or square brackets below or to the side of the question).

If there is insufficient space to provide any particulars required, continue on attachments.

Part A—Parties and land ☒

1.	Purchaser:		
	Address:		
2.	Purchaser's registered agent:		☐
	Address:		
3.	Vendor:	**Jing Gu and Lisa Jane Gu**	
	Address:	**8A Britton Avenue, Tranmere, SA 5073**	
4.	Vendor's registered agent	**Klemich Real Estate**	☒
	Address:	**85 King William Street, Kent Town, SA 5067**	
5.	Date of contract (if made before this statement is served):		
6.	Description of the land:	**Whole of the land comprised in Certificate of Title Register Book Volume 6249 Folio 423, being the property located at 8A Britton Avenue, Tranmere, South Australia 5073**	

Part B—Purchaser's cooling-off rights and proceeding with the purchase

To the purchaser:

Right to cool-off

(section 5)

1—Right to cool-off and restrictions on that right

You may notify the vendor of your intention not to be bound by the contract for the sale of the land UNLESS—

(a) you purchased by auction; or

(b) you purchased on the same day as you, or some person on your behalf, bid at the auction of the land; or

(c) you have, before signing the contract, received independent advice from a legal practitioner and the legal practitioner has signed a certificate in the prescribed form as to the giving of that advice; or

(d) you are a body corporate and the land is not residential land; or

(e) the contract is made by the exercise of an option to purchase not less than 5 clear business days after the grant of the option and not less than 2 clear business days after service of this form; or

(f) sale is by tender and the contract is made not less than 5 clear business days after the day fixed for the closing of tenders and not less than 2 clear business days after service of this form; or

(g) contract also provides for the sale of a business that is not a small business.

2—Time for service

The cooling-off notice must be served—

(a) if this form is served on you before the making of the contract—before the end of the second clear business day after the day on which the contract was made; or

(b) if this form is served on you after the making of the contract—before the end of the second clear business day from the day on which this form is served.

However, if this form is not served on you at least 2 clear business days before the time at which settlement takes place, the cooling-off notice may be served at any time before settlement.

3—Form of cooling-off notice

The cooling-off notice must be in writing and must be signed by you.

4—Methods of service

The cooling-off notice must be—

(a) given to the vendor personally; or

(b) posted by registered post to the vendor at the following address:

8A Britton Avenue, Tranmere, SA 5073

(being the vendor's last known address); or

(c) transmitted by fax or email to the following fax number or email address:

rocco@klemich.com.au

(being a number or address provided to you by the vendor for the purpose of service of the notice); or

(d) left for the vendor's agent (with a person apparently responsible to the agent) at, or posted by registered post to the agent at, the following address:

85 King William Street, Kent Town, SA 5067

(being ~~*the agent's address for service under the *Land Agents Act 1994*/~~an address nominated by the agent to you for the purpose of service of the notice).

Note—

Section 5(3) of the *Land and Business (Sale and Conveyancing) Act 1994* places the onus of proving the giving of the cooling-off notice on the purchaser. It is therefore strongly recommended that—

(a) if you intend to serve the notice by leaving it for the vendor's agent at the agent's address for service or an address nominated by the agent, you obtain an acknowledgment of service of the notice in writing; or

(b) if you intend to serve the notice by fax or email, you obtain a record of the transmission of the fax or email.

5—Effect of service

If you serve such cooling-off notice on the vendor, the contract will be taken to have been rescinded at the time when the notice was served. You are then entitled to the return of any money you paid under the contract other than—

(a) the amount of any deposit paid if the deposit did not exceed $100; or

(b) an amount paid for an option to purchase the land.

Proceeding with the purchase

If you wish to proceed with the purchase—

(a) it is strongly recommended that you take steps to make sure your interest in the property is adequately insured against loss or damage; and

(b) pay particular attention to the provisions in the contract as to time of settlement - it is essential that the necessary arrangements are made to complete the purchase by the agreed date - if you do not do so, you may be in breach of the contract; and

(c) you are entitled to retain the solicitor or registered conveyancer of your choice.

Part C—Statement with respect to required particulars

Schedule—Division 1—Particulars of mortgages, charges and prescribed encumbrances affecting the land

(section 7(1)(b))

Note—

Section 7(3) of the Act provides that this statement need not include reference to charges arising from the imposition of rates or taxes less than 12 months before the date of service of the statement.

Where a mortgage, charge or prescribed encumbrance referred to in column 1 of the table below is applicable to the land, the particulars in relation to that mortgage, charge or prescribed encumbrance required by column 2 of the table must be set out in the table (in accordance with the instructions in the table) unless—

(a) there is an attachment to this statement and—

(i) all the required particulars are contained in that attachment; and

(ii) the attachment is identified in column 2; and

(iii) if the attachment consists of more than 2 sheets of paper, those parts of the attachment that contain the required particulars are identified in column 2; or

(b) the mortgage, charge or prescribed encumbrance—

(i) is 1 of the following items in the table:

(A) under the heading 1. General—

1.1 Mortgage of land

1.4 Lease, agreement for lease, tenancy agreement or licence

1.5 Caveat

1.6 Lien or notice of a lien

(B) under the heading 36. Other charges—

36.1 Charge of any kind affecting the land (not included in another item); and

(ii) is registered on the certificate of title to the land; and

(iii) is to be discharged or satisfied prior to or at settlement.

Buyers information notice

Land and Business (Sale and Conveyancing) Act 1994 section 13A
Land and Business (Sale and Conveyancing) Regulations 2010 regulation 17

Before you buy a home there are a number of things that you should investigate and consider. Though it may not be obvious at the time, there could be matters that may affect your enjoyment of the property, the safety of people on the property or the value of the property.

The following questions may help you to identify if a property is appropriate to purchase. In many cases the questions relate to a variety of laws and standards. These laws and standards change over time, so it is important to seek the most up to date information. Various government agencies can provide up to date and relevant information on many of these questions. To find out more, Consumer and Business Services recommends that you check the website: www.cbs.sa.gov.au

Consider having a professional building inspection done before proceeding with a purchase. A building inspection will help you answer some of the questions below.

The questions have been categorised under the headings **Safety**, **Enjoyment** and **Value**, but all of the issues are relevant to each heading.

Safety

- Is there **asbestos** in any of the buildings or elsewhere on the property eg sheds and fences?
- Does the property have any significant **defects** eg **cracking** or **salt damp**? Have the wet areas been waterproofed?
- Is the property in a **bushfire** prone area?
- Are the **electrical wiring**, **gas installation**, **plumbing and appliances** in good working order and in good condition? Is a **safety switch** (RCD) installed? Is it working?
- Are there any prohibited **gas appliances** in bedrooms or bathrooms?
- Are **smoke alarms** installed in the house? If so, are they hardwired? Are they in good working order and in good condition? Are they compliant?
- Is there a **swimming pool and/or spa pool** installed on the property? Are there any safety barriers or fences in place? Do they conform to current standards?
- Does the property have any **termite** or other pest infestations? Is there a current preventive termite treatment program in place? Was the property treated at some stage with persistent organochlorins (now banned) or other **toxic** termiticides?
- Has fill been used on the site? Is the soil contaminated by **chemical residues** or waste?
- Does the property use **cooling towers** or manufactured warm water systems? If so, what are the maintenance requirements?

Enjoyment

- Does the property have any **stormwater** problems?
- Is the property in a **flood prone** area? Is the property prone to coastal flooding?
- Does the property have an on-site **wastewater treatment facility** such as a septic tank installed? If so, what are the maintenance requirements? Is it compliant?
- Is a **sewer mains connection** available?
- Are all gutters, downpipes and stormwater systems in good working order and in good condition?
- Is the property near **power lines**? Are there any trees on the property near power lines? Are you considering planting any trees? Do all structures and trees maintain the required clearance from any power lines?
- Are there any **significant** trees on the property?
- Is this property a unit on **strata or community title**? What could this mean for you? Is this property on strata or community title? Do you understand the restrictions of use and the financial obligations of ownership? Will you have to pay a previous owner's debt or the cost of planned improvements?
- Is the property close to a hotel, restaurant or other venue with entertainment consent for live music? Is the property close to any industrial or commercial activity, a busy road or airport etc that may result in the generation of **noise** or the **emission of materials or odours** into the air?
- What appliances, equipment and fittings are included in the sale of the property?
- Is there sufficient car parking space available to the property?

Value

- Are there any **illegal or unapproved additions**, extensions or alterations to the buildings on the property?
- How **energy efficient** is the home, including appliances and lighting? What **energy sources** (eg electricity, gas) are available?
- Is the property connected to SA Water operated and maintained **mains water**? Is a mains water connection available? Does the property have a **recycled water** connection? What sort of water meter is located on the property (a **direct or indirect meter** – an indirect meter can be located some distance from the property)? Is the property connected to a water meter that is also serving another property?
- Are there water taps outside the building? Is there a watering system installed? Are they in good working order and in good condition?
- Does the property have **alternative sources** of water other than mains water supply (including **bore or rainwater**)? If so, are there any special maintenance requirements?

For more information on these matters visit: www.cbs.sa.gov.au

Disclaimer: There may be other issues relevant to the purchase of real estate. If you are unable to ascertain enough information about the questions raised in this form and any other concerns you may have we strongly recommend you obtain independent advice through a building inspection, a lawyer, and a financial adviser.

Building restrictions

It is an offence under section 86 of the *Electricity Act 1996* to erect a building or structure within a prescribed distance of aerial or underground powerlines. In some, but not all, cases approval may be obtained from the Technical Regulator. Generally, however, land owners must not build, or alter a building or structure, with the result that any part of the resulting building or structure is within the minimum clearance distance required from certain types of powerlines. These building limitations are set out in the *Electricity (General) Regulations 2012* regulations 81 and 82. Purchasers intending to redevelop the property to be purchased should therefore be aware that the restrictions under the *Electricity Act* and *Regulations* may affect how, or if, they are able to redevelop the property.

In addition, if a building or structure is erected in proximity to a powerline of an electricity entity in contravention of the *Electricity Act*, the entity may seek a court order:
a) requiring the person to take specified action to remove or modify the building or structure within a specified period;
b) for compensation from the person for loss or damage suffered in consequence of the contravention; and/or
c) for costs reasonably incurred by the entity in relocating the powerline or carrying out other work.

Contact the Office of the Technical Regulator in DEM on 8226 5500 for further details.

Statutory easements

Statutory easements for purposes such as (and without limitation) electricity, telecommunications, gas, water and sewage, may also exist, but may not be registered or defined on the title for the land.

Separate from the above building restrictions, South Australia's electricity supply and transmission businesses have statutory easements over land where part of the electricity distribution or transmission system was on, above or under the land as at particular dates specified by legislation.

This notice does not necessarily imply that any statutory or other easement exists.

However, where in existence, statutory easements may provide these organisations and businesses (identified in the relevant legislation) with the right of entry, at any reasonable time, to operate, repair, examine, replace, modify or maintain their equipment, to bring any vehicles or equipment on the land for these purposes, and to install, operate and carry out work on any pipelines, electricity or telecommunications cables or equipment that may be incorporated in, or attached to, their equipment (For example, see Clause 2 of Schedule 1 of the *Electricity Corporations (Restructuring and Disposal) Act 1999*; section 48A of the *Electricity Act 1996*).

For further clarification on these matters, please contact the relevant organisations or businesses, such as SA Power Networks' Easements Branch on telephone 8404 5897 or 8404 5894.

If you intend to excavate, develop or subdivide land, it is suggested that you first lodge a 'Dial Before you Dig' enquiry. Dial Before You Dig is a free referral service that provides information on the location of underground infrastructure. Using the Dial Before you Dig service (https://1100.com.au) may mitigate the risk of injury or expense resulting from inadvertent interference with, damage to, or requirement to relocate infrastructure.

***Land Tax Act 1936* and *Regulations* thereunder**

Agents should note that the current owner will remain liable for any additional charge accruing due before the date of this certificate which may be assessed on the land and also that the purchaser is only protected in respect of the tax for the financial year for which this certificate is issued. If the change of ownership will not occur on or before the 30th June, another certificate should be sought in respect of the next financial year or requests for certificate should not be made until after 30th June.

Animal and Plant Control (Agriculture Protection and other purposes) Act 1986* and *Regulations

Agents should note that this legislation imposes a responsibility on a landholder to control and keep controlled proclaimed plants and particular classes of animals on a property.

Information should be obtained from:

- The vendor about the known presence of proclaimed plants or animals on the property including details which the vendor can obtain from records held by the local animal and plant control board
- The local animal and plant control board or the Animal and Plant Control Commission on the policies and priorities relating to the control of any serious proclaimed plants or animals in the area where the property is located.

Landscape South Australia 2019

Water Resources Management - Taking of underground water

Under the provisions of the *Landscape South Australia Act 2019*, if you intend to utilise underground water on the land subject to this enquiry the following apply:

- A well construction permit accompanied by the prescribed fee is required if a well/bore exceeding 2.5 meters is to be constructed. As the prescribed fee is subject to annual review, you should visit the webpage below to confirm the current fee
- A licensed well driller is required to undertake all work on any well/bore
- Work on all wells/bores is to be undertaken in accordance with the *General specification for well drilling operations affecting water in South Australia*.

Further information may be obtained by visiting https://www.environment.sa.gov.au/licences-and-permits/water-licence-and-permit-forms. Alternatively, you may contact the Department for Environment and Water on (08) 8735 1134 or email DEWwaterlicensing@sa.gov.au.

Please Note:

Please check that the property details shown on this Certificate are correct for the land being sold.

This Certificate is only valid for the financial year shown.

If the change of ownership will occur in the following financial year, you must obtain another Certificate after 30 June.

Payment should be made as part of the settlement process.

The amount payable on this Certificate must be paid in full even if only a portion of the subject land is being sold. RevenueSA cannot apportion the land tax.

If the amount payable is not paid in full on or before the due date shown on this Certificate, the purchaser will not be released from liability of the whole amount of the land tax outstanding as at the date of settlement.

The owner of the land as at midnight on 30 June immediately before the financial year of this Certificate will remain liable for any additional land tax accrued before the date of this Certificate, even if the amount payable on this Certificate has been paid.

The amount payable on this Certificate is the land tax payable at the date of issue. However, land tax for a particular financial year may be reassessed at any time, changing the amount payable.

Should a reassessment occur after this Certificate has been paid in full, the purchaser will remain indemnified and will not be responsible for payment of the new land tax payable amount. The owner at the beginning of the relevant financial year will be responsible for payment of any additional land tax payable.

Should a reassessment occur after this Certificate has been issued but not paid in full, the purchaser will not be indemnified and may become responsible for payment of the new land tax payable amount.

Should a reassessment occur after this Certificate has been paid in full and the Certificate is subsequently updated, the purchaser will not be indemnified and may become responsible for payment of the new land tax payable amount.

Provision of this Certificate does not relieve the land owner of their responsibility to pay their Notice of Land Tax Assessment by the due date.

Date: 17 July 2020

Cc: Estate Of W F Loh, F Y Seck
8 Britton Avenue
TRANMERE SA 5073

Document Set ID: 6378931
Version: 1, Version Date: 30/07/2020

CONDITIONS Development Number: 170/0759/19/DT

The Consent or Approval indicated on the attached Decision Notification Form has been granted subject to the following conditions.

1. That except where minor amendments may be required by other relevant Acts, or by conditions imposed by this application, the development is to be established in strict accordance with the endorsed stamped details and plans submitted in Development Application number 170/0759/19 and all works shall be completed to the reasonable satisfaction of Council prior to the occupation and/or use of the development.

   Reason: To ensure that the development is conducted in accordance with the approval

2. The side and rear upper level windows of the two double storey dwellings will be fitted with manufactured obscure glass to a minimum height of 1.5 metres above the upper floor level, such windows to be permanently fixed shut other than by a wind out mechanism (opening to no greater than 150mm) and hinged at the top or bottom of the window panel. The obscure glass must be fitted prior to commencement of use of the dwelling(s) and is to be maintained at all times.

   Reason: To minimise overlooking of adjoining properties

3. All stormwater from the whole site is to be drained to the street watertable or Council underground stormwater system including rear allotment drainage if available. Discharge from the site shall be limited to a maximum of 3 litres/second unless otherwise advised by Council Engineering staff.

   Reason: To protect council's underground stormwater drainage system

4. All planting and landscaping must be completed in the first planting season concurrent with or following commencement of the use of this development and must be maintained in good condition. Any plants which become diseased or die must be replaced by suitable species.

   Reason: To maintain the amenity of the site and the locality

5. The proposed driveway (Dwelling 1) shall be altered to obtain a minimum 0.5 metre clearance from the existing stobie pole adjacent to the subject land.

   Reason: To prevent damage to public infrastructure

The conditions (3) and notes attached to the Provisional Building Rules Consent granted by the Private Certifier form part of this Development Approval and should be read in conjunction with Council's conditions and notes.

NOTES

1. Building work associated with this Development Approval must be substantially commenced within 12 months of the date of this approval. Should work not be substantially commenced after 12 months, a new development application will be required to be lodged and approved by Council.

2. A licensed builder or owner builder must provide a notice of completion in accordance with Regulation 83AB of the Development Act 1993 to the Council within 10 business days of completion of the building work. Where a private certifier has granted the building rules consent and is the relevant authority for the purposes of this regulation, the private certifier must forward the statement to the Council within 5 business days.

3. If this application involves development on the boundary or within close proximity of the boundary of the allotment, the applicant must ensure that the development is undertaken entirely on the subject land and that no part of the structure approved, including the guttering, encroaches any property boundary. To ensure that the proposed development is constructed within the allotment and at the approved set back, it is recommended that a site survey be undertaken to confirm the location of the relevant boundaries.

4. Any existing driveway inverts and crossovers that Council considers redundant as a result of development hereby approved, shall be reinstated at the applicant's expense and in accordance with Council specifications.

5. Pursuant to the Building Work Contractors Act, 1995 where an owner builder engages a sub-contractor to perform work or to supervise work then the sub-contractor must enter into a contract in writing setting out in full all of the contractual terms. The contractor also must take out a policy of Indemnity Insurance for each contract over $12000 in value (Note: Pursuant to Regulation 83AB of the Development Regulations -1993, Part A of the Builders Written Statement needs to be signed by the licensed building work contractor who has carried out the relevant work or who was in charge of carrying out the relevant work to which the statement relates or if there is no such licensed building work contractor - a registered building work supervisor or a private certifier. Part B of the Builders Written Statement needs to be signed by the owner of the relevant land or by someone acting on his or her behalf). (ref Development Regulations 2008 Regulation 21)

6. During construction of the approved development should any friable or bonded Asbestos material be identified you are directed to contact Workplace Services, Mineral Fibres Unit on ph 8303 0405. Removal of any friable or bonded Asbestos material should be undertaken strictly in compliance Workplace Services Guidelines and the relevant provisions of the Occupational Health Safety and Welfare Act, 1995.

7. Any air conditioning unit installed as a part of the approved development should satisfy the requirements of the Environment Protection (Machine Noise) Policy 1994 and be located in a position which minimises impact on adjoining dwellings. Information concerning air conditioners can be found on the web site at www.epa.sa.gov.au or contact the EPA on ph 8204 2000.

In the interest of good neighbour relations the applicant is requested to advise the neighbours when building work is likely to commence.

The conditions have been imposed to ensure that the development complies with the relevant provisions of the Development Plan and/or the Building Rules and in particular to help ensure that the development is not likely to significantly detract from the character or amenity of the locality.

You are reminded that Section 86(1)(a) of the Development Act, 1993 provides for a right of appeal to the Environment, Resources and Development Court against the imposition of conditions attaching to the decision **within two months** after receipt of this notice.

Please note that any appeal has to be lodged with the Court and **not** the Council.

For assistance in lodging an appeal it is suggested that you contact the Court which is located in the Sir Samuel Way Building, Victoria Square, Adelaide (phone 8204 0300).

Building work: Two Double Storey Detached Dwellings
Site address: 8 Britton Avenue, Tranmere SA 5073
Applicant: Building Design Studio
Owner: Di Paolo Developments
Classification: 1a

Development No: 170/0759/19/DT

CONDITIONS OF CONSENT

1. All claddings shall be non-combustible.
   Section 39

2. The Alfresco & Porch areas shall be set down 50mm to conform with AS4773.1
   NCC-Performance Requirement P2.1

3. The distribution of articulation joints to the proposed masonry shall be in accordance with the Engineers documentation, Job Number 191055, dated 25/03/2020.
   NCC-Performance Requirement P2.1

Notes

All footings along the side allotment boundaries shall be founded a minimum of 600mm into firm natural ground.

"The Truss Manufacturer has designed the trusses in this building using the Plasterboard Ceiling as a bottom chord restraint for the Trusses. Where a penetration is required in the ceiling for down lights , air conditioners or other such penetration, guidance must be sought from the Truss Manufacturer, as to the amount & placement of the penetration".

The roof trusses for the sheet roof shall be erected, installed and braced in accordance with AS4440 and the manufacturer's specification.

All engineering design details and calculations shall take precedence over any conflicting framing documentations.

Mechanical ventilation must be provided to the toilet / bathroom / laundry; which must exhaust directly to the outside of the building; or into the roof space provided it has adequately ventilated open eaves, and / or roof vents.

A slip resistant finish shall be provided to all stairs / steps and landings not less than that listed in Table 3.9.1.3 of the National Construction Code when tested in accordance with AS4586.

Suitable overflow provisions must be provided to all eaves gutters in accordance with NCC-Table 3.5.3.1e.

Set-off dimensions shall be from the allotment boundaries and not necessarily the fence lines.

This consent does not include any **Brush Fencing**, which shall be the subject of a separate consent by the relevant authority at an alternative date.

A person proposing to undertake or undertaking building work on land (or who is in charge of such work) must give Council notice at stages prescribed in Regulation 74.

Document Set ID: 6372228
Version: 1, Version Date: 10/07/2020

As the building owner proposes to carry out work of a prescribed nature in accordance with the building regulations, that is work which affects the stability of other land or premises, the building owner, must, at least 28 days before the building work is commenced cause to be served on the owner of the affected land or premises a notice of intention to perform the building work and the nature of that work, as required by Section 60.

All timbers exposed to the weather or in contact with the ground shall be durability class 1 or 2 (AS1720) or shall be adequately treated with preservative (AS1604). All nails used for framing anchor and straps shall be corrosion protected. Nails used in joints that are continuously damp or exposed to the weather shall be hot-dip galvanized, stainless steel or monel metal.

The roof trusses for the sheet roof shall:

- be a proprietary product designed using certified software and manufactured by a licensed manufacturer to the provision of AS1720.1 and AS1649,
- have the top and bottom chords and webs restrained in accordance with the requirements of the truss design parameters
- where battens terminate at a truss (ie gable truss, hip truss, etc) the battens shall either continue past the face of the truss by at least 75mm or the truss shall be provided with blocking, spacers or equivalent
- where bottom chord and web restrains are joined they shall be overlapped at the truss (with the ends continuing past the face of the truss by at least 75mm)
- be provided with top and bottom chord bracing in accordance with AS4440 and the manufacturer's specification,
- be stored, erected and installed in accordance with AS4440 and the manufacturer's specification.

Structural timbers members that are not protected from weather must be of a suitable durability class or preservative treated to hazard level H3 in accordance with AS1604.

The assessment of the timber framing has been based on the understanding that the timber to be used for all structural elements has a minimum joint strength group of J4 or JD4.

This application has been assessed on the understanding that the internal stairway is to be strictly in accordance with standard details from Stairlok. Any alteration to these standard details shall require a separate or amended consent.

The head height in all stairways shall be a minimum of 2.0 metres measured vertically above the nosing line.

The height of the damp proof courses or flashing shall be no less than 275mm above the adjacent finished ground level for all walls along the allotment boundary and 75mm above the finished paved or concrete areas graded no steeper than 1 in 20 for the first metre away from the building for all other walls.

All glazing shall be in accordance with AS 1288 & AS 2047, including safety glass for full height windows, glazed doors, side panels and windows located over or adjacent to a bath/shower.

A person must not occupy a Class 1a building under the Building Code before a notice of completion of building work is given. The relevant person (a licensed builder or if no such builder exists, a registered building work supervisor or a private certifier) must provide a written statement to the relevant authority in accordance with the requirements of regulation 83AB. This statement must declare that the building work carried out on the building is in accordance with the relevant approval (disregarding any variations of a minor nature which has no adverse effect on the structural soundness or safety of the building, or on the health of the occupants of the building, or any variation undertaken with the written consent of the relevant authority).

The face of the external boundary wall shall be on the boundary with no portion of the structure or the attachments to the structure to extend over that boundary.

The onus of proof of the boundary line shall rest with the building owner. This could necessitate a survey being carried out by a licensed surveyor. The building owner will require the neighbour's approval to enter their land to carry out any work.

The discharge of storm-water along council land requires the consent of the council prior to the commencement of site-works (seek advice from Council's Engineering Department).

Document Set ID: 6372228
Version: 1, Version Date: 10/07/2020

The roof & surface storm-water drainage system must be constructed in accordance with AS/NZS 3500.3: Part 3 – Storm-water drainage, or AS/NZS 3500.5 Domestic installations, Section 5 – Storm-water drainage. Provision also shall be made for overflow of all gutters in accordance with the requirement of the BCA.

The proposed building(s) must be protected against attack by subterranean termites in accordance with AS3660.1. The owner must be aware that a durable notice must be permanently fixed to the building in a prominent location, such as a metre box or the like, indicating (i) The method of termite risk management, and (ii) The date of installation of the system, and (iii) where a chemical barrier is used, its life expectancy as listed on the National Registration Authority label, and (iv) The installer's or manufacturer's recommendations for the scope and the frequency of future inspections for termite activity.

CONSTRUCTION AT OR NEAR BOUNDARY:
A perimeter barrier shall be installed to the construction at or near the boundary. Building owners should be aware that this type of construction could result in a greater risk of termite entry due to one or a combination of the following reasons: (a) Concealed entry by termites occurring to the structure because of the specific construction method used.
(b) Lack of access for the installation of a barrier during construction.
(c) Lack of access for inspection and maintenance.
(d) The actions of adjoining owners, which may compromise the effectiveness of the barrier after completion of the construction phase.

NOTES: (1) Where construction at or near the boundary is carried out, it may not be possible to install a barrier system as specified in this Standard. These situations may include duplexes, villas, townhouses, parapet walls, buildings with zero setbacks to an allotment boundary on separate title allotments, and the like.
(2) Where a barrier system can not be provided in accordance with this Standard, full documentation on the limitations of the barrier system installed should be provided to the building owner (see Appendix A of A3660.1). Where possible, more frequent inspections should be undertaken.

Building work adjacent to a property boundary and / or existing structure is proposed and this may compromise the effectiveness of the termite barrier. Documentation on the limitations of the termite barrier installed in this regard should be provided to the building owner.

The footing system has not been designed for **FUTURE** tree effects. (Future planting may have an impact on the performance of the footing system. For further information, refer to the Footing Construction Report or seek advice from the design engineer).

Heating appliances must be installed in accordance with Part 3.7.3 of the BCA.

IMPORTANT: This consent does not imply compliance with the Electricity Act, 1996 as amended (building within prescribed distances of adjacent power lines), the Gas Act 1997, the Environment Protection Act 1993, the Waterworks Act, the Telecommunications Act, the Occupational Health, Safety & Welfare Act, the (State) Equal Opportunity Act, 1984, or with the Commonwealth Disability Discrimination Act, 1993 as amended or with any of the regulations under those Acts. It is the responsibility of the owner and the person erecting the building to ensure compliance with same.
