Part D - Certificate with respect to prescribed inquiries by registered agent ☑

Schedule

Preliminary

To the purchaser:

The purpose of a statement under section 7 of the *Land and Business (Sale and Conveyancing) Act 1994* is to put you on notice of certain particulars concerning the land to be acquired.

If you intend to carry out building work on the land, change the use of the land or divide the land, you should make further inquiries to determine whether this will be permitted. For example, building work may not be permitted on land not connected to a sewerage system or common drainage scheme if the land is near a watercourse, dam, bore or the River Murray and Lakes.

The *Aboriginal Heritage Act 1988* protects any Aboriginal site or object on the land. Details of any such site or object may be sought from the "traditional owners" as defined in that Act.

If you desire additional information, it is up to you to make further inquiries as appropriate.

Instructions to the vendor for completing this statement:

☐ *means the Part, Division, particulars or item may not be applicable.*

If it is applicable, ensure the box is ticked and complete the Part, Division, particulars or item.

If it is not applicable, ensure the box is empty or strike out the Part, Division, particulars or item. Alternatively, the Part, Division, particulars or item may be omitted, but not in the case of an item or heading in the table of particulars in Division 1 of the Schedule that is required by the instructions at the head of that table to be retained as part of this statement.

** means strike out or omit the option that is not applicable.*

All questions must be answered with a YES or NO (inserted in the place indicated by parentheses below or to the side of the question).

If there is insufficient space to provide any particulars required, continue on attachments.

Part B—Purchaser's cooling-off rights and proceeding with the purchase

To the purchaser:

Right to cool-off

(section 5)

1. Right to cool-off and restrictions on that right

You may notify the vendor of your intention not to be bound by the contract for the sale of the land UNLESS:

(a) you purchased by auction; or

(b) you purchased on the same day as you, or some person on your behalf, bid at the auction of the land; or

(c) you have, before signing the contract, received independent advice from a legal practitioner and the legal practitioner has signed a certificate in the prescribed form as to the giving of that advice; or

(d) you are a body corporate and the land is not residential land; or

(e) the contract is made by the exercise of an option to purchase not less than 5 clear business days after the grant of the option and not less than 2 clear business days after service of this form; or

(f) the sale is by tender and the contract is made not less than 5 clear business days after the day fixed for the closing of tenders and not less than 2 clear business days after service of this form; or

(g) the contract also provides for the sale of a business that is not a small business.

2. Time for service

The cooling-off notice must be served:

(a) if this form is served on you before the making of the contract—before the end of the second clear business day after the day on which the contract was made; or

(b) if this form is served on you after the making of the contract—before the end of the second clear business day from the day on which this form is served.

However, if this form is not served on you at least 2 clear business days before the time at which settlement takes place, the cooling-off notice may be served at any time before settlement.

3. Form of cooling-off notice

The cooling-off notice must be in writing and must be signed by you.

4. Methods of service

The cooling-off notice must be:

(a) given to the vendor personally; or

(b) posted by registered post to the vendor at the following address:

C/- 9 Beta Crescent Panorama SA 5041

(being the vendor's last known address); or

(c) transmitted by fax or email to the following fax number or email address:

matt@klemich.com.au

(being a number or address provided to you by the vendor for the purpose of service of the notice); or

(d) left for the vendor's agent (with a person apparently responsible to the agent) at, or posted by registered post to the agent at, the following address:

1/245 Fullarton Road Eastwood SA 5063

(being *****the agent's address for service under the *Land Agents Act 1994* /~~ an address nominated by the agent to you for the purpose of service of the notice~~).

Note:

Section 5(3) of the *Land and Business (Sale and Conveyancing) Act 1994* places the onus of proving the giving of the cooling-off notice on the purchaser. It is therefore strongly recommended that:

(a) if you intend to serve the notice by leaving it for the vendor's agent at the agent's address for service or an address nominated by the agent, you obtain an acknowledgment of service of the notice in writing;

(b) if you intend to serve the notice by fax or email, you obtain a record of the transmission of the fax or email.

5. Effect of service

If you serve such cooling-off notice on the vendor, the contract will be taken to have been rescinded at the time when the notice was served. You are then entitled to the return of any money you paid under the contract other than:

(a) the amount of any deposit paid if the deposit did not exceed $100; or

(b) an amount paid for an option to purchase the land.

Proceeding with the purchase

If you wish to proceed with the purchase:

(a) it is strongly recommended that you take steps to make sure your interest in the property is adequately insured against loss or damage; and

(b) pay particular attention to the provisions in the contract as to time of settlement - it is essential that the necessary arrangements are made to complete the purchase by the agreed date - if you do not do so, you may be in breach of the contract; and

(c) you are entitled to retain the solicitor or registered conveyancer of your choice.

Schedule—Division 1—Particulars of mortgages, charges and prescribed encumbrances affecting the land

(section 7(1)(b))

Note:

Section 7(3) of the Act provides that this statement need not include reference to charges arising from the imposition of rates or taxes less than 12 months before the date of service of the statement.

Where a mortgage, charge or prescribed encumbrance referred to in column 1 of the table below is applicable to the land, the particulars in relation to that mortgage, charge or prescribed encumbrance required by column 2 of the table must be set out in the table (in accordance with the instructions in the table) unless -

(a) there is an attachment to this statement and:
- (i) all the required particulars are contained in that attachment; and
- (ii) the attachment is identified in column 2; and
- (iii) if the attachment consists of more than 2 sheets of paper, those parts of the attachment that contain the required particulars are identified in column 2; or

(b) the mortgage, charge or prescribed encumbrance:
- (i) is 1 of the following items in the table:
  - (A) under the heading 1. General:
    - 1.1 Mortgage of land
    - 1.4 Lease, agreement for lease, tenancy agreement or licence
    - 1.5 Caveat
    - 1.6 Lien or notice of a lien
  - (B) under the heading 36. Other charges:
    - 36.1 Charge of any kind affecting the land (not included in another item); and
- (ii) is registered on the certificate of title to the land; and
- (iii) is to be discharged or satisfied prior to or at settlement.

Table of particulars

Buyers information notice

Before you buy a home there are a number of things that you should investigate and consider. Though it may not be obvious at the time, there could be matters that may affect your enjoyment of the property, the safety of people on the property or the value of the property.

The following questions may help you to identify if a property is appropriate to purchase. In many cases the questions relate to a variety of laws and standards. These laws and standards change over time, so it is important to seek the most up to date information. Various government agencies can provide up to date and relevant information on many of these questions. To find out more, Consumer and Business Services recommends that you check the Consumer and Business Advice section on the following website: www.cbs.sa.gov.au.

Consider having a professional building inspection done before proceeding with a purchase. A building inspection will help you answer some of the questions below.

The questions have been categorised under the headings **Safety, Enjoyment** and **Value**, but all of the issues are relevant to each heading.

Safety

- Is there **asbestos** in any of the buildings or elsewhere on the property e.g. sheds and fences?
- Does the property have any significant **defects** e.g. **cracking** or **salt damp**? Have the wet areas been waterproofed?
- Is the property in a **bushfire** prone area?
- Are the **electrical wiring, gas installation, plumbing and appliances** in good working order and in good condition? Is a **safety switch** (RCD) installed? Is it working?
- Are there any prohibited **gas appliances** in bedrooms or bathrooms?
- Are **smoke alarms** installed in the house? If so, are they hardwired? Are they in good working order and in good condition? Are they compliant?
- Is there a **swimming pool and/or spa pool** installed on the property? Are there any safety barriers or fences in place? Do they conform to current standards?
- Does the property have any **termite** or other pest infestations? Is there a current preventive termite treatment program in place? Was the property treated at some stage with persistent organochlorins (now banned) or other **toxic** termiticides?
- Has fill been used on the site? Is the soil contaminated by **chemical residues** or waste?
- Does the property use **cooling towers** or manufactured warm water systems? If so, what are the maintenance requirements?

Enjoyment

- Does the property have any **stormwater** problems?
- Is the property in a **flood prone** area? Is the property prone to coastal flooding?
- Does the property have an on-site **wastewater treatment facility** such as a septic tank installed? If so, what are the maintenance requirements? Is it compliant?
- Is a **sewer mains connection** available?
- Are all gutters, downpipes and stormwater systems in good working order and in good condition?
- Is the property near **power lines**? Are there any trees on the property near power lines? Are you considering planting any trees? Do all structures and trees maintain the required clearance from any power lines?
- Are there any **significant** trees on the property?
- Is this property a unit on **strata or community title**? What could this mean for you? Is this property on strata or community title? Do you understand the restrictions of use and the financial obligations of ownership? Will you have to pay a previous owner's debt or the cost of planned improvements?
- Is the property close to a hotel, restaurant or other venue with entertainment consent for live music? Is the property close to any industrial or commercial activity, a busy road or airport etc that may result in the generation of **noise** or the **emission of materials or odours** into the air?
- What appliances, equipment and fittings are included in the sale of the property?
- Is there sufficient car parking space available to the property?

Value

- Are there any **illegal or unapproved additions**, extensions or alterations to the buildings on the property?
- How **energy efficient** is the home, including appliances and lighting? What **energy sources** (e.g. electricity, gas) are available?
- Is the property connected to SA Water operated and maintained **mains water**? Is a mains water connection available? Does the property have a **recycled water** connection? What sort of water meter is located on the property (a **direct or indirect meter** – an indirect meter can be located some distance from the property)? Is the property connected to a water meter that is also serving another property?
- Are there water taps outside the building? Is there a watering system installed? Are they in good working order and in good condition?
- Does the property have **alternative sources** of water other than mains water supply (including **bore or rainwater**)? If so, are there any special maintenance requirements?

Electricity and Telecommunications Infrastructure - Building Restrictions and Statutory Easements (including those related to gas, water and sewage)

Building restrictions

It is an offence under section 86 of the *Electricity Act 1996* to erect a building or structure within a prescribed distance of aerial or underground powerlines. In some, but not all, cases approval may be obtained from the Technical Regulator. Generally, however, land owners must not build, or alter a building or structure, with the result that any part of the resulting building or structure is within the minimum clearance distance required from certain types of powerlines. These building limitations are set out in the *Electricity (General) Regulations 2012* regulations 81 and 82. Purchasers intending to redevelop the property to be purchased should therefore be aware that the restrictions under the *Electricity Act* and *Regulations* may affect how, or if, they are able to redevelop the property.

In addition, if a building or structure is erected in proximity to a powerline of an electricity entity in contravention of the *Electricity Act*, the entity may seek a court order:
a) requiring the person to take specified action to remove or modify the building or structure within a specified period;
b) for compensation from the person for loss or damage suffered in consequence of the contravention; and/or
c) for costs reasonably incurred by the entity in relocating the powerline or carrying out other work.

Contact the Office of the Technical Regulator in DEM on 8226 5500 for further details.

Statutory easements

Statutory easements for purposes such as (and without limitation) electricity, telecommunications, gas, water and sewage, may also exist, but may not be registered or defined on the title for the land.

Separate from the above building restrictions, South Australia's electricity supply and transmission businesses have statutory easements over land where part of the electricity distribution or transmission system was on, above or under the land as at particular dates specified by legislation.

This notice does not necessarily imply that any statutory or other easement exists.

However, where in existence, statutory easements may provide these organisations and businesses (identified in the relevant legislation) with the right of entry, at any reasonable time, to operate, repair, examine, replace, modify or maintain their equipment, to bring any vehicles or equipment on the land for these purposes, and to install, operate and carry out work on any pipelines, electricity or telecommunications cables or equipment that may be incorporated in, or attached to, their equipment (For example, see Clause 2 of Schedule 1 of the *Electricity Corporations (Restructuring and Disposal) Act 1999*; section 48A of the *Electricity Act 1996*).

For further clarification on these matters, please contact the relevant organisations or businesses, such as SA Power Networks' Easements Branch on telephone 8404 5897 or 8404 5894.

If you intend to excavate, develop or subdivide land, it is suggested that you first lodge a 'Dial Before you Dig' enquiry. Dial Before You Dig is a free referral service that provides information on the location of underground infrastructure. Using the Dial Before you Dig service (https://1100.com.au) may mitigate the risk of injury or expense resulting from inadvertent interference with, damage to, or requirement to relocate infrastructure.

***Land Tax Act 1936* and *Regulations* thereunder**

Agents should note that the current owner will remain liable for any additional charge accruing due before the date of this certificate which may be assessed on the land and also that the purchaser is only protected in respect of the tax for the financial year for which this certificate is issued. If the change of ownership will not occur on or before the 30th June, another certificate should be sought in respect of the next financial year or requests for certificate should not be made until after 30th June.

Animal and Plant Control (Agriculture Protection and other purposes) Act 1986* and *Regulations

Agents should note that this legislation imposes a responsibility on a landholder to control and keep controlled proclaimed plants and particular classes of animals on a property.

Information should be obtained from:

- The vendor about the known presence of proclaimed plants or animals on the property including details which the vendor can obtain from records held by the local animal and plant control board
- The local animal and plant control board or the Animal and Plant Control Commission on the policies and priorities relating to the control of any serious proclaimed plants or animals in the area where the property is located.

Landscape South Australia 2019

Water Resources Management - Taking of underground water

Under the provisions of the *Landscape South Australia Act 2019*, if you intend to utilise underground water on the land subject to this enquiry the following apply:

- A well construction permit accompanied by the prescribed fee is required if a well/bore exceeding 2.5 meters is to be constructed. As the prescribed fee is subject to annual review, you should visit the webpage below to confirm the current fee
- A licensed well driller is required to undertake all work on any well/bore
- Work on all wells/bores is to be undertaken in accordance with the *General specification for well drilling operations affecting water in South Australia*.

Further information may be obtained by visiting https://www.environment.sa.gov.au/licences-and-permits/water-licence-and-permit-forms. Alternatively, you may contact the Department for Environment and Water on (08) 8735 1134 or email DEWwaterlicensing@sa.gov.au.

Does the council hold details of any development approvals relating to:	
(a) Commercial or industrial activity at the land; or	NO
(b) A change in the use of the land or part the land (within the meaning of the Development Act 1993)?	NO

Note—

The questions (a) and (b) relate to information that the council for the area in which the land is situated may hold. If the council answers "YES" to the question, it will provide a description of the nature of each development approved in respect of the land. The purchaser may then obtain further details from the council (on payment of any fee fixed by the council). However, it is expected that the ability to supply further details will vary considerably between councils.

A "YES" answer to (a) of the question may indicate that a *potentially contaminating activity* has taken place at the land (see sections 103C and 103H of the *Environment Protection Act 1993*) and that assessments or remediation of the land may be required at some future time.

(a) the approval of development by a council does not necessarily mean that the development has taken place;

(b) the council will not necessarily be able to provide a complete history of all such development that has taken place at the land.

No payment is required on this Certificate

Please Note:

Please check that the property details shown on this Certificate are correct for the land being sold.

This Certificate is only valid for the financial year shown.

If the change of ownership will occur in the following financial year, you must obtain another Certificate after 30 June.

Payment should be made as part of the settlement process.

The amount payable on this Certificate must be paid in full even if only a portion of the subject land is being sold. RevenueSA cannot apportion the land tax.

If the amount payable is not paid in full on or before the due date shown on this Certificate, the purchaser will not be released from liability of the whole amount of the land tax outstanding as at the date of settlement.

The owner of the land as at midnight on 30 June immediately before the financial year of this Certificate will remain liable for any additional land tax accrued before the date of this Certificate, even if the amount payable on this Certificate has been paid.

The amount payable on this Certificate is the land tax payable at the date of issue. However, land tax for a particular financial year may be reassessed at any time, changing the amount payable.

Should a reassessment occur after this Certificate has been paid in full, the purchaser will remain indemnified and will not be responsible for payment of the new land tax payable amount. The owner at the beginning of the relevant financial year will be responsible for payment of any additional land tax payable.

Should a reassessment occur after this Certificate has been issued but not paid in full, the purchaser will not be indemnified and may become responsible for payment of the new land tax payable amount.

Should a reassessment occur after this Certificate has been paid in full and the Certificate is subsequently updated, the purchaser will not be indemnified and may become responsible for payment of the new land tax payable amount.

Provision of this Certificate does not relieve the land owner of their responsibility to pay their Notice of Land Tax Assessment by the due date.

is your **swimming pool** kid safe?

What you need to know about swimming pool fencing

Government of South Australia
Department of Planning, Transport and Infrastructure

As a swimming pool owner, YOU ARE RESPONSIBLE for safety.

Drowning is the biggest cause of accidental death for young children and most occur in private backyard swimming pools. You can reduce the risk of such an accident occurring in your swimming pool by making sure that your pool is adequately fenced and young children are supervised at all times.

Fencing

> All swimming pools must have a continuous safety barrier that is maintained by the pool owner and which restricts access by young children to the pool.

Filtration

> In-ground or above-ground swimming pools and spas must have a water recirculation and filtration system that complies with AS 1926.3 to reduce the risk of injury to a young child due to entrapment by suction.

Maintenance

> Swimming pool owners must ensure that all required swimming pool safety features are maintained in working order at all times.

Supervision

> Children can move quickly and do not recognise the dangers of a pool - close child supervision will help to reduce the number of drownings in private swimming pools.

Resuscitation

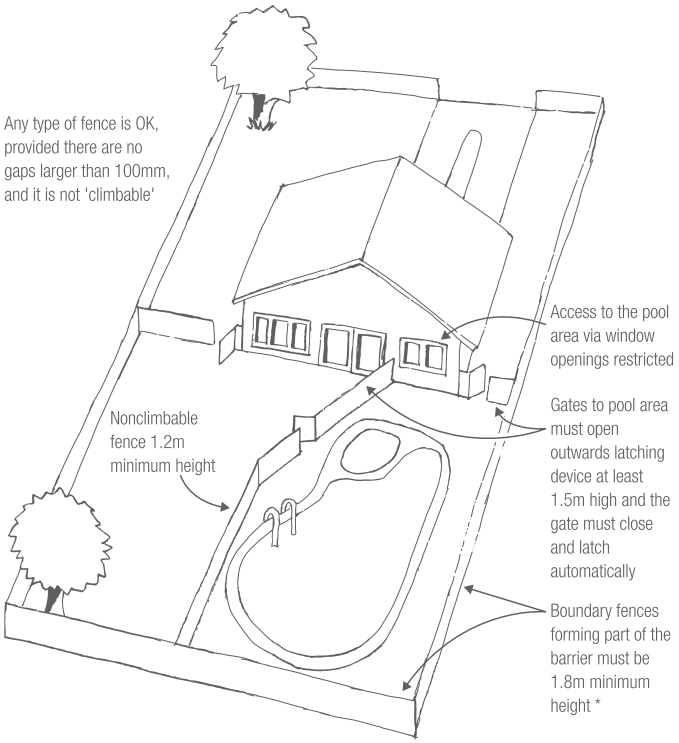

> Resuscitation skills are crucial because they save lives – make certain that someone on the property has these skills.

LEGISLATION APPLYING TO SWIMMING POOLS IN SA

Swimming pools built before 1 July 1993

If your property contains a swimming pool built before 1 July 1993 and you are placing your property up for sale you will need to ensure that your swimming pool barriers are in line with Ministerial Building Standard MBS 004 - Swimming pool safety - designated safety features for pools built before 1 July 1993.

If the property on which a swimming pool is located is not sold, the swimming pool can continue to comply with the old *Swimming Pools (Safety) Act 1972*, which requires the swimming pool owner to ensure that the swimming pool is enclosed by a fence, wall or building or any combination of these, that restricts access by young children to the swimming pool.

* Boundary fences forming part of the barrier must be 1.8m high, with a 900mm non-climbable zone at the top on the pool side of the fence.

Swimming pools built on or after 1 July 1993

Swimming pools built from 1 July 1993 must comply with the rules that were in place when the pool or child safety barriers were approved. Contact the local Council to find out what rules apply.

Acceptable safety barriers

All pools must have suitable safety barriers to restrict access by young children to the immediate pool surrounds, constructed in accordance with Australian Standard AS 1926.1.

Barrier requirements complying with AS 1926.1

Fencing must be constructed, such that:

> the fence is an effective barrier to young children

> it is permanent

> it does not provide access for young children to crawl under or to climb over by using foot and hand holds

> it is not less than 1.2 metres high

> boundary fences, if used as part of the child-safety barrier must be at least 1.8 metres high on the **inside**, with a 900mm non-climbable zone on the **inside** at the top. It can be less than 1.8 metres high and can be climbable on the **outside** (neighbour's side).

Gates to the pool area must:

> only swing outward from the pool area

> be self closing from any position

> be fitted with a latching device that is out reach of small children (generally 1.5 metres above ground level)

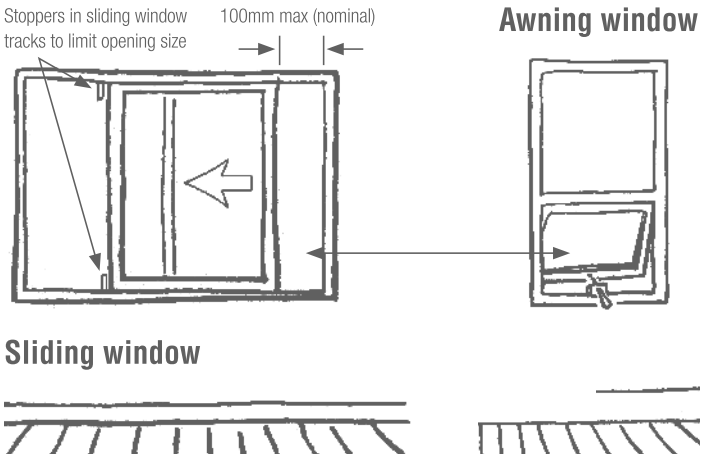

> you should never prop the gate open or prevent it from latching.

Security measures on awning and sliding windows complying with AS 1926.1

Where the openable part of any window is less than 1.8 metres above the finished ground level and provides direct access from the house to the pool area, it must have one of the following:

> bars or metal screen or

> a mechanism limiting the size of the window opening to a maximum of 100mm.

Inspections

If you are selling a property with a swimming pool, you are not required to have an inspection or compliance certificate – however some council officers, building consultants and private certifiers are able to offer advice. Only council officers have legislative authority under the *Planning, Development and Infrastructure Act 2016 (PDI Act)* to enforce requirements for swimming pool safety.

For new swimming pools, your local council will inspect the pool and safety features including the finished child safety barriers. You need to notify your council at two stages:

1. When the pool itself is ready for filling with water
2. When the **approved** child safety barriers are finished and ready to inspect

You must not fill the pool until a complying safety barrier is in place. A temporary barrier that complies with the Building Code can be used for not more than two months.

POOL SAFETY CHECKLIST

Ask yourself these questions to assess the safety of your pool.

> **Could a young child easily climb over, under or through your fence to get to the pool?**

Minimum standards for new pools require (generally) a 1.2m high permanent fence (or 1.8m in the case of a boundary fence), which a young child could not easily climb over or pass through from outside the pool enclosure.

> **Do all of the gates in your pool safety barrier close and latch properly, so that they could not easily be opened by a small child?**

Gates must be self-closing and self-latching. The release for the latching device must be at least 1.5m above ground level or otherwise out of reach. Gates must be hung so that they open outwards from the pool area. Never prop the gate open.

> **Is the pool clear of toys and other floating objects that could attract a child's attention?**

Balls and other floating toys can attract children to the water. Keep them out of the pool area when not in use.

> **Could a child get access to a swimming pool through a window in your house?**

The current requirement for new pools is broadly that, where the openable part of the window is less than 1.8m above the finished ground level, then a child could get access to the pool area through the window and as such the window must be protected to AS 1926.1

> **Do you keep an eye out for objects that could be used for climbing over a pool safety barrier?**

Objects such as garden furniture, children's toys, plants and ladders could be used by young children to climb over a safety barrier to get to the swimming pool. Keep these objects well away from the safety barriers.

> **Do you supervise young children while they are in or outside the pool area?**

Safety barriers alone are not enough to prevent young children from getting to a swimming pool. Young children are adventurous; they may climb, squeeze through or scale safety barriers to get to a swimming pool. Adequate supervision is essential.

> **Do you have resuscitation skills?**

Total responsibility includes resuscitation skills. Training for resuscitation is available from The Royal Life Saving Society, Australian Red Cross and St John Ambulance.

> **Do you maintain the fence and gates?**

The law requires that you must ensure that safety features are maintained in good working order at all times. This includes making sure that the gate closes and latches automatically.

FREQUENTLY ASKED QUESTIONS

What is a swimming pool?

The PDI Act defines a swimming pool as an excavation or structure that is capable of being filled with water and is used primarily for swimming, wading, paddling, or the like, including a bathing or wading pool, or spa pool, but not a spa bath.

People often ask if the requirements apply to a fish pond or landscaping water feature. The answer is that they do not unless it is used primarily for swimming, wading, paddling or the like.

If I buy an aboveground or inflatable pool, what do I have to do?

If the pool has a filtration system, you will need to contact your local council about obtaining approval for the pool and ensuring safety features are in place.

The sides of my aboveground pool are more than 1.2 metres high. Do I need a fence as well?

The sides of some aboveground pools can be acceptable as pool safety barriers, however if you choose to rely on the side walls the ladder/access point must be fenced.

Can I install a portable pool or spa on a deck?

If you are thinking about installing a portable pool or spa on a deck, balcony, suspended floor or near a retaining wall you should seek advice from an engineer or your local council about whether the deck or wall can take the weight of the pool without collapsing.

Do I need development approval for a new pool?

Yes. Before approval, your local council will check:

- the details and location of safety barriers (they should restrict access to the swimming pool by young children)
- the safety of the pump (there are a number of safety requirements in place to prevent suction-related injuries or deaths in swimming pools)
- the adequacy of structural support for the swimming pool (particularly if the pool is to be placed on a deck, balcony or near a retaining wall)

I want to sell my house and I have a swimming pool. What are my legal obligations?

If your property contains a swimming pool that was built or installed before 1 July 1993 and you are placing your property up for sale you will need to ensure that your swimming pool barriers are in line with the relevant requirements for swimming pool safety. Fencing or barriers may need to be upgraded to meet the safety requirements.

Note: This requirement only applies to swimming pools built or installed before 1 July 1993.

It is the responsibility of the party selling the property to ensure that the swimming pool safety is in line with the current requirements.
Note: A certificate of compliance is **not required** under current legislation.

Can child-resistant doors be used as part of the safety barrier?

Child-resistant doors cannot be used for new outdoor pools – only compliant fencing can be used. For pools built before 1 July 1993 child-resistant doors can only be used in situations allowed by Ministerial Building Standard MBS 004.

How long can a temporary fence/barrier be used as the safety barrier?

For up to two months from the date of completion of the pool. The approved safety barrier must be installed before the expiration of two months.

IMPORTANT NOTICE

SMOKE ALARM LEGISLATION

Legislation relating to smoke alarms came into force on the 1st day of February 1998.

- If the home you are purchasing was built on or after the 1st January 1995, then it should already have an operational mains powered smoke alarm installed. If not, it is the responsibility of the vendor to install it prior to settlement at the vendor's cost.

- If the home was built prior to 1st January 1995, but purchased by the vendor on or after 1st February 1998, then it should already have either an operational mains powered smoke alarm installed, or one powered by 10 year life, non-replaceable, non-removable permanently connected batteries. Again, it is the responsibility of the vendor to install such an alarm prior to settlement, and at the vendor's cost.

- In all other cases, the home you are buying must have at least, a battery operated smoke alarm which you are required to upgrade to mains power (or an alarm fitted with 10 year life, non-replaceable, non-removable permanently connected batteries) within six months of the date of purchase. It is recommended that at least one smoke alarm be installed on each floor of a multi storey dwelling.

The smoke alarms must be installed by a licensed electrician and must comply with the Australian Standard. A maximum penalty of $750.00 for a breach of the legislation applies.

Besides this penalty, there is also a risk that damage caused by fire to a dwelling, which does not have a smoke alarm installed as required under the legislation, may not be covered by insurance.
