Schedule

Preliminary

To the purchaser:

The purpose of a statement under section 7 of the *Land and Business (Sale and Conveyancing) Act 1994* is to put you on notice of certain particulars concerning the land to be acquired.

If you intend to carry out building work on the land, change the use of the land or divide the land, you should make further inquiries to determine whether this will be permitted. For example, building work may not be permitted on land not connected to a sewerage system or common drainage scheme if the land is near a watercourse, dam, bore or the River Murray and Lakes.

The *Aboriginal Heritage Act 1988* protects any Aboriginal site or object on the land. Details of any such site or object may be sought from the "traditional owners" as defined in that Act.

If you desire additional information, it is up to you to make further inquiries as appropriate.

Instructions to the vendor for completing this statement:

☐ *means the Part, Division, particulars or item may not be applicable.*

If it is applicable, ensure the box is ticked and complete the Part, Division, particulars or item.

If it is not applicable, ensure the box is empty or strike out the Part, Division, particulars or item. Alternatively, the Part, Division, particulars or item may be omitted, but not in the case of an item or heading in the table of particulars in Division 1 of the Schedule that is required by the instructions at the head of that table to be retained as part of this statement.

** means strike out or omit the option that is not applicable.*

All questions must be answered with a YES or NO (inserted in the place indicated by parentheses below or to the side of the question).

If there is insufficient space to provide any particulars required, continue on attachments.

Part B—Purchaser's cooling-off rights and proceeding with the purchase

To the purchaser:

Right to cool-off

(section 5)

1. Right to cool-off and restrictions on that right

You may notify the vendor of your intention not to be bound by the contract for the sale of the land UNLESS:

(a) you purchased by auction; or

(b) you purchased on the same day as you, or some person on your behalf, bid at the auction of the land; or

(c) you have, before signing the contract, received independent advice from a legal practitioner and the legal practitioner has signed a certificate in the prescribed form as to the giving of that advice; or

(d) you are a body corporate and the land is not residential land; or

(e) the contract is made by the exercise of an option to purchase not less than 5 clear business days after the grant of the option and not less than 2 clear business days after service of this form; or

(f) the sale is by tender and the contract is made not less than 5 clear business days after the day fixed for the closing of tenders and not less than 2 clear business days after service of this form; or

(g) the contract also provides for the sale of a business that is not a small business.

2. Time for service

The cooling-off notice must be served:

(a) if this form is served on you before the making of the contract—before the end of the second clear business day after the day on which the contract was made; or

(b) if this form is served on you after the making of the contract—before the end of the second clear business day from the day on which this form is served.

However, if this form is not served on you at least 2 clear business days before the time at which settlement takes place, the cooling-off notice may be served at any time before settlement.

3. Form of cooling-off notice

The cooling-off notice must be in writing and must be signed by you.

4. Methods of service

The cooling-off notice must be:

(a) given to the vendor personally; or

(b) posted by registered post to the vendor at the following address:

C/- 1/245 Fullarton Road Eastwood SA 5063

(being the vendor's last known address); or

(c) transmitted by fax or email to the following fax number or email address:

matt@klemich.com.au

(being a number or address provided to you by the vendor for the purpose of service of the notice); or

(d) left for the vendor's agent (with a person apparently responsible to the agent) at, or posted by registered post to the agent at, the following address:

1/245 Fullarton Road Eastwood SA 5063

(being *****the agent's address for service under the *Land Agents Act 1994* /~~ an address nominated by the agent to you for the purpose of service of the notice~~).

Note:

Section 5(3) of the *Land and Business (Sale and Conveyancing) Act 1994* places the onus of proving the giving of the cooling-off notice on the purchaser. It is therefore strongly recommended that:

(a) if you intend to serve the notice by leaving it for the vendor's agent at the agent's address for service or an address nominated by the agent, you obtain an acknowledgment of service of the notice in writing;

(b) if you intend to serve the notice by fax or email, you obtain a record of the transmission of the fax or email.

5. Effect of service

If you serve such cooling-off notice on the vendor, the contract will be taken to have been rescinded at the time when the notice was served. You are then entitled to the return of any money you paid under the contract other than:

(a) the amount of any deposit paid if the deposit did not exceed $100; or

(b) an amount paid for an option to purchase the land.

Proceeding with the purchase

If you wish to proceed with the purchase:

(a) it is strongly recommended that you take steps to make sure your interest in the property is adequately insured against loss or damage; and

(b) pay particular attention to the provisions in the contract as to time of settlement - it is essential that the necessary arrangements are made to complete the purchase by the agreed date - if you do not do so, you may be in breach of the contract; and

(c) you are entitled to retain the solicitor or registered conveyancer of your choice.

Schedule—Division 1—Particulars of mortgages, charges and prescribed encumbrances affecting the land (section 7(1)(b))

Note:

Section 7(3) of the Act provides that this statement need not include reference to charges arising from the imposition of rates or taxes less than 12 months before the date of service of the statement.

Where a mortgage, charge or prescribed encumbrance referred to in column 1 of the table below is applicable to the land, the particulars in relation to that mortgage, charge or prescribed encumbrance required by column 2 of the table must be set out in the table (in accordance with the instructions in the table) unless -

(a) there is an attachment to this statement and:
- (i) all the required particulars are contained in that attachment; and
- (ii) the attachment is identified in column 2; and
- (iii) if the attachment consists of more than 2 sheets of paper, those parts of the attachment that contain the required particulars are identified in column 2; or

(b) the mortgage, charge or prescribed encumbrance:
- (i) is 1 of the following items in the table:
  - (A) under the heading 1. General:
    - 1.1 Mortgage of land
    - 1.4 Lease, agreement for lease, tenancy agreement or licence
    - 1.5 Caveat
    - 1.6 Lien or notice of a lien
  - (B) under the heading 36. Other charges:
    - 36.1 Charge of any kind affecting the land (not included in another item); and
- (ii) is registered on the certificate of title to the land; and
- (iii) is to be discharged or satisfied prior to or at settlement.

Table of particulars

Column 1 **Column 2** **Column 3**

(If an item is applicable, ensure that the box for the item is ticked and complete the item.)

(If an item is not applicable, ensure that the box for the item is empty or else strike out the item or write "NOT APPLICABLE" or "N/A" in column 1. Alternatively, the item and any inapplicable heading may be omitted, but not in the case of:

(a) the heading "1. General" and items 1.1, 1.2, 1.3 and 1.4; and

(b) the heading "5. Development Act 1993 (repealed)" and item 5.1; and

Buyers information notice

Prescribed notice to be given to purchaser

Before you buy a home there are a number of things that you should investigate and consider. Though it may not be obvious at the time, there could be matters that may affect your enjoyment of the property, the safety of people on the property or the value of the property.

The following questions may help you to identify if a property is appropriate to purchase. In many cases the questions relate to a variety of laws and standards. These laws and standards change over time, so it is important to seek the most up to date information. Various government agencies can provide up to date and relevant information on many of these questions. To find out more, Consumer and Business Services (CBS) recommends that you check the Consumer and Business Advice section on the following website: www.cbs.sa.gov.au.

Consider having a professional building inspection done before proceeding with a purchase. A building inspection will help you answer some of the questions below.

The questions have been categorised under the headings **Safety, Enjoyment** and **Value**, but all of the issues are relevant to each heading.

Safety

- Is there **asbestos** in any of the buildings or elsewhere on the property e.g. sheds and fences?
- Does the property have any significant **defects** e.g. **cracking** or **salt damp**? Have the wet areas been waterproofed?
- Is the property in a **bushfire** prone area?
- Are the **electrical wiring, gas installation, plumbing and appliances** in good working order and in good condition? Is a **safety switch** (RCD) installed? Is it working?
- Are there any prohibited **gas appliances** in bedrooms or bathrooms?
- Are **smoke alarms** installed in the house? If so, are they hardwired? Are they in good working order and in good condition? Are they compliant?
- Is there a **swimming pool and/or spa pool** installed on the property? Are there any safety barriers or fences in place? Do they conform to current standards?
- Does the property have any **termite** or other pest infestations? Is there a current preventive termite treatment program in place? Was the property treated at some stage with persistent organochlorins (now banned) or other **toxic** termiticides?
- Has fill been used on the site? Is the soil contaminated by **chemical residues** or waste?
- Does the property use **cooling towers** or manufactured warm water systems? If so, what are the maintenance requirements?

Enjoyment

- Does the property have any **stormwater** problems?
- Is the property in a **flood prone** area? Is the property prone to coastal flooding?
- Does the property have an on-site **wastewater treatment facility** such as a septic tank installed? If so, what are the maintenance requirements? Is it compliant?
- Is a **sewer mains connection** available?
- Are all gutters, downpipes and stormwater systems in good working order and in good condition?
- Is the property near **power lines**? Are there any trees on the property near power lines? Are you considering planting any trees? Do all structures and trees maintain the required clearance from any power lines?
- Are there any **significant** trees on the property?
- Is this property a unit on **strata or community title**? What could this mean for you? Is this property on strata or community title? Do you understand the restrictions of use and the financial obligations of ownership? Will you have to pay a previous owner's debt or the cost of planned improvements?
- Is the property close to a hotel, restaurant or other venue with entertainment consent for live music? Is the property close to any industrial or commercial activity, a busy road or airport etc that may result in the generation of **noise** or the **emission of materials or odours** into the air?
- What appliances, equipment and fittings are included in the sale of the property?
- Is there sufficient car parking space available to the property?

Value

- Are there any **illegal or unapproved additions**, extensions or alterations to the buildings on the property?
- How **energy efficient** is the home, including appliances and lighting? What **energy sources** (e.g. electricity, gas) are available?
- Is the property connected to SA Water operated and maintained **mains water**? Is a mains water connection available? Does the property have a **recycled water** connection? What sort of water meter is located on the property (a **direct or indirect meter** – an indirect meter can be located some distance from the property)? Is the property connected to a water meter that is also serving another property?
- Are there water taps outside the building? Is there a watering system installed? Are they in good working order and in good condition?
- Does the property have **alternative sources** of water other than mains water supply (including **bore or rainwater**)? If so, are there any special maintenance requirements?

For more information on these matters visit www.cbs.sa.gov.au.

Disclaimer: There may be other issues relevant to the purchase of real estate. If you are unable to ascertain enough information about the questions raised in this form and any other concerns you may have, we strongly recommend you obtain independent advice through a building inspection, a lawyer, and a financial adviser.

Electricity and Telecommunications Infrastructure - Building Restrictions and Statutory Easements (including those related to gas, water and sewage)

Building restrictions

It is an offence under section 86 of the *Electricity Act 1996* to erect a building or structure within a prescribed distance of aerial or underground powerlines. In some, but not all, cases approval may be obtained from the Technical Regulator. Generally, however, land owners must not build, or alter a building or structure, with the result that any part of the resulting building or structure is within the minimum clearance distance required from certain types of powerlines. These building limitations are set out in the *Electricity (General) Regulations 2012* regulations 81 and 82. Purchasers intending to redevelop the property to be purchased should therefore be aware that the restrictions under the *Electricity Act* and *Regulations* may affect how, or if, they are able to redevelop the property.

In addition, if a building or structure is erected in proximity to a powerline of an electricity entity in contravention of the *Electricity Act*, the entity may seek a court order:
a) requiring the person to take specified action to remove or modify the building or structure within a specified period;
b) for compensation from the person for loss or damage suffered in consequence of the contravention; and/or
c) for costs reasonably incurred by the entity in relocating the powerline or carrying out other work.

Contact the Office of the Technical Regulator in DEM on 8226 5500 for further details.

Statutory easements

Statutory easements for purposes such as (and without limitation) electricity, telecommunications, gas, water and sewage, may also exist, but may not be registered or defined on the title for the land.

Separate from the above building restrictions, South Australia's electricity supply and transmission businesses have statutory easements over land where part of the electricity distribution or transmission system was on, above or under the land as at particular dates specified by legislation.

This notice does not necessarily imply that any statutory or other easement exists.

However, where in existence, statutory easements may provide these organisations and businesses (identified in the relevant legislation) with the right of entry, at any reasonable time, to operate, repair, examine, replace, modify or maintain their equipment, to bring any vehicles or equipment on the land for these purposes, and to install, operate and carry out work on any pipelines, electricity or telecommunications cables or equipment that may be incorporated in, or attached to, their equipment (For example, see Clause 2 of Schedule 1 of the *Electricity Corporations (Restructuring and Disposal) Act 1999*; section 48A of the *Electricity Act 1996*).

For further clarification on these matters, please contact the relevant organisations or businesses, such as SA Power Networks' Easements Branch on telephone 8404 5897 or 8404 5894.

If you intend to excavate, develop or subdivide land, it is suggested that you first lodge a 'Dial Before you Dig' enquiry. Dial Before You Dig is a free referral service that provides information on the location of underground infrastructure. Using the Dial Before you Dig service (https://1100.com.au) may mitigate the risk of injury or expense resulting from inadvertent interference with, damage to, or requirement to relocate infrastructure.

***Land Tax Act 1936* and *Regulations* thereunder**

Agents should note that the current owner will remain liable for any additional charge accruing due before the date of this certificate which may be assessed on the land and also that the purchaser is only protected in respect of the tax for the financial year for which this certificate is issued. If the change of ownership will not occur on or before the 30th June, another certificate should be sought in respect of the next financial year or requests for certificate should not be made until after 30th June.

Animal and Plant Control (Agriculture Protection and other purposes) Act 1986* and *Regulations

Agents should note that this legislation imposes a responsibility on a landholder to control and keep controlled proclaimed plants and particular classes of animals on a property.

Information should be obtained from:

- The vendor about the known presence of proclaimed plants or animals on the property including details which the vendor can obtain from records held by the local animal and plant control board
- The local animal and plant control board or the Animal and Plant Control Commission on the policies and priorities relating to the control of any serious proclaimed plants or animals in the area where the property is located.

Landscape South Australia 2019

Water Resources Management - Taking of underground water

Under the provisions of the *Landscape South Australia Act 2019*, if you intend to utilise underground water on the land subject to this enquiry the following apply:

- A well construction permit accompanied by the prescribed fee is required if a well/bore exceeding 2.5 meters is to be constructed. As the prescribed fee is subject to annual review, you should visit the webpage below to confirm the current fee
- A licensed well driller is required to undertake all work on any well/bore
- Work on all wells/bores is to be undertaken in accordance with the *General specification for well drilling operations affecting water in South Australia*.

Further information may be obtained by visiting https://www.environment.sa.gov.au/licences-and-permits/water-licence-and-permit-forms. Alternatively, you may contact the Department for Environment and Water on (08) 8735 1134 or email DEWwaterlicensing@sa.gov.au.

CONDITIONS Development Number: 170/0548/18/DT

The Consent or Approval indicated on the attached Decision Notification Form has been granted subject to the following conditions.

1. That except where minor amendments may be required by other relevant Acts, or by conditions imposed by this application, the development is to be established in strict accordance with the endorsed stamped details and plans submitted in Development Application number 170/0548/18 and all works shall be completed to the reasonable satisfaction of Council prior to the occupation and/or use of the development.

   Reason: To ensure that the development is conducted in accordance with the approval

2. The control, retention, detention and/or disposal of all stormwater from the building(s), the subject of this application shall be in accordance with the Siteworks and Drainage Plan by **Intrax** Consulting Engineers Job No. **11187 - C01 - Rev: C** with overflow directed to the street water table, unless otherwise approved by Council. Stormwater infrastructure and all stormwater connections internal and external to property boundaries shall be completed within two months of the first occupation of the dwelling and must be maintained in good working order at all times.

   Reason: To reduce the risk of water damage to neighbouring properties and to limit the extent of flows to Council's stormwater system.

3. Landscaping consisting of grasses, groundcovers, shrubs and small trees shall be provided within areas not comprising driveways, parking and manoeuvring areas, paths and perimeter pavement in accordance with the approved Site Plan, within 3 months of occupation of the dwelling.

   Reason: To reduce the dominance of paved surface and enhance the amenity of the streetscape and locality.

4. All upper level windows of the dwellings, with the exception of the windows on the southern elevation facing onto Davies Avenue, must be fitted with manufactured obscure glass to a minimum height of 1.5 metres above the upper floor level, such windows to be permanently fixed shut other than by a wind out mechanism (opening to no greater than 150mm) and hinged at the top or bottom of the window panel. The obscure glass must be fitted prior to commencement of use of the dwellings.

   Reason: To minimise overlooking of adjoining properties.

5. All scarring or physical disturbances of the land surface during any excavation work shall be restricted to only that which is shown on the approved plan as required for building work and/or access purposes. All exposed faces around such scarred areas and spoil shall be screened with trees and shrubs and covered with suitable ground cover to the reasonable satisfaction of Council.

   Reason: To ensure that excavations and filled land is stable and will not result in any adverse impact on adjoining properties.

Document Set ID: 6194367
Version: 1, Version Date: 07/12/2018

6. That effective measures be implemented during the construction of the development and on-going use of the land in accordance with this consent to:

- prevent silt run-off from the land to adjoining properties, roads and drains;
- control dust arising from the construction and other activities, so as not to, in the opinion of Council, be a nuisance to residents or occupiers on adjacent or nearby land;
- ensure that soil or mud is not transferred onto the adjacent roadways by vehicles leaving the site;
- ensure that all litter and building waste is contained on the subject site in a suitable bin or enclosure; or
- ensure that no sound is emitted from any device, plant or equipment or from any source or activity to become an unreasonable nuisance, in the opinion of Council, to the occupiers of adjacent land.

Reason: To minimise potential adverse off site environmental impacts.

7. The external finishes to the building or structure herein approved shall be in accordance with the materials as specified in the application now approved.

Reason: To maintain and enhance the visual amenity of the locality in which the subject land is situated

8. External lighting and security lighting shall be directed in such a manner so as to not, in the opinion of Council, create unreasonable overspill onto any adjoining property or roadway which may create a nuisance to any neighbour or road user.

Reason: To ensure that floodlighting does not cause nuisance or danger to adjoining occupiers or road users thereby reducing the amenity of the locality and/or making road use unsafe.

The conditions (1) and notes attached to the Provisional Building Rules Consent granted by the Private Certifier form part of this Development Approval and should be read in conjunction with Council's conditions and notes.

NOTES

1. Building work associated with this Development Approval must be substantially commenced within 12 months of the date of this approval. Should work not be substantially commenced after 12 months, a new development application will be required to be lodged and approved by Council.

2. A licensed builder or owner builder must provide a notice of completion in accordance with Regulation 83AB of the Development Act 1993 to the Council within 10 business days of completion of the building work. Where a private certifier has granted the building rules consent and is the relevant authority for the purposes of this regulation, the private certifier must forward the statement to the Council within 5 business days.

3. If this application involves development on the boundary or within close proximity of the boundary of the allotment, the applicant must ensure that the development is undertaken entirely on the subject land and that no part of the structure approved, including the guttering, encroaches any property boundary. To ensure that the proposed development is constructed within the allotment and at the approved set back, it is recommended that a site survey be undertaken to confirm the location of the relevant boundaries.

4. Any existing driveway inverts and crossovers that Council considers redundant as a result of development hereby approved, shall be reinstated at the applicant's expense and in accordance with Council specifications.

5. Pursuant to the Building Work Contractors Act, 1995 where an owner builder engages a sub-contractor to perform work or to supervise work then the sub-contractor must enter into a contract in writing setting out in full all of the contractual terms. The contractor also must take out a policy of Indemnity Insurance for each contract over $12000 in value (Note: Pursuant to Regulation 83AB of the Development Regulations - 1993, Part A of the Builders Written Statement needs to be signed by the licensed building work contractor who has carried out the relevant work or who was in charge of carrying out the relevant work to which the statement relates or if there is no such licensed building work contractor - a registered building work supervisor or a private certifier. Part B of the Builders Written Statement needs to be signed by the owner of the relevant land or by someone acting on his or her behalf). (ref Development Regulations 2008 Regulation 21)

6. During construction of the approved development should any friable or bonded Asbestos material be identified you are directed to contact Workplace Services, Mineral Fibres Unit on ph 8303 0405. Removal of any friable or bonded Asbestos material should be undertaken strictly in compliance Workplace Services Guidelines and the relevant provisions of the Occupational Health Safety and Welfare Act, 1995.

7. Any air conditioning unit installed as a part of the approved development should satisfy the requirements of the Environment Protection (Machine Noise) Policy 1994 and be located in a position which minimises impact on adjoining dwellings. Information concerning air conditioners can be found on the web site at www.epa.sa.gov.au or contact the EPA on ph 8204 2000.

8. Allotment boundaries will not be certified by Council staff. The onus of ensuring that the building is sited in the approved position on the current allotment is the responsibility of the owner. This may necessitate a survey being carried out by a licensed land surveyor.

   Reason: To ensure the appropriate functioning of the development and site.

9. All mechanical plant installed as part of this development shall not result in unreasonable noise impacts upon adjoining neighbours and/or the public generally in accordance with the Local Nuisance and Litter Control Act 2016. If the Council deems that the noise is unreasonable then action must be taken to ensure noise is adequately reduced to the reasonable satisfaction of Council.

   Reason: To ensure the proposed development does not result in unreasonable noise intrusion.

10. Retaining wall and fence structures with a combined total height exceeding 2.1 metres (measured from the lower of the two adjoining finished ground levels) require Development Approval. Please note that no such structures have been approved for the external boundaries as part of this development application.

    Reason: To ensure the appropriate functioning of the development and site.

Document Set ID: 6194367
Version: 1, Version Date: 07/12/2018

11. During construction of the development hereby approved, the following shall be observed:

(a) Dust from any work undertaken on the site shall be reasonably controlled at all times by daily watering or other method deemed satisfactory by Council.

(b) Noise generated at the site shall be kept to a minimum and in accordance with the policies adopted under the Environment Protection Act.

(c) Vehicles owned by the employees of contractors and sub-contractors working on the development shall not be parked on the footpath and shall be parked within the site where possible.

(d) Any dirt or debris from the site deposited onto existing roadways and watertable by the applicant's contractors or subcontractors shall be cleared immediately.

(e) All earthworks shall be confined to and contained entirely within the property boundaries and must not encroach on or over adjoining properties or the roadside verge/reserve.

(f) Any refuse on the site shall be controlled by the use of a refuse container of a size and type to the reasonable satisfaction of Council.

(g) A fence or other barrier shall be erected on the subject land to ensure that all vehicular access to the site is restricted to the invert in the kerb and watertable.

(h) Any damage to Council infrastructure, street furniture or trees as a direct result of the construction of the development hereby approved shall be immediately made good by the applicant in a manner to the reasonable satisfaction of Council.

(I) Any stormwater runoff and wastewater or washdown water shall be managed in accordance with the Environment Protection Agency's Code of Practice for the Building and Construction Industry to the reasonable satisfaction of Council.

(j) Care shall be taken to ensure that no trespass occurs with regard to adjoining properties without the prior consent of the relevant property owner.

Reason: To maintain the amenity of the site and locality and minimise the impact on adjoining properties.

12. The owner(s), applicant, builders and contractors should be aware that Council has standards in relation to the design of work involving or affecting Council infrastructure. These details can be found online at: *<http://www.campbelltown.sa.gov.au/page.aspx?u=2230>*

The following Standard Details should be adopted in relation to this project as a reference:

- *Standard Detail 1 (SD1) - Barrier and Kerb Detail*
- *Standard Detail 4 (SD4) - Invert and Crossover Detail*
- *Standard Detail 8 (SD8) - Standard Stormwater Detail*
- *Standard Detail 10 (SD10) - Property Access Grades Detail*
- *Standard Detail 11 (SD11) - Private Underground Electrical Service Detail*
- *Standard Detail 12 (SD12) - Stormwater Retention and Detention Detail*
- *Standard Detail 13 (SD13) - Street Furniture and Service Distance Requirements*

Work must also be conducted in accordance with relevant Australian Standards.

Prior to undertaking any works on Council land, please contact Council's Assets and Engineering Services on 8366 9219.

Please note that Council is entitled to pursue costs for rectification work that may be required on Council land as a result of works conducted that are unsatisfactory, in accordance with the provisions of the Local Government Act 1999.

Before any work is conducted on site or within road reserve, the location of underground service infrastructure should be identified by calling 1100 “Dial Before You Dig” or visiting *http://www.1100.com.au*

Reason: To protect the infrastructure within the road verge and to ensure that all work impacting upon Council’s infrastructure is conducted in an orderly manner that is consistent with recognised standards.

In the interest of good neighbour relations the applicant is requested to advise the neighbours when building work is likely to commence.

The conditions have been imposed to ensure that the development complies with the relevant provisions of the Development Plan and/or the Building Rules and in particular to help ensure that the development is not likely to significantly detract from the character or amenity of the locality.

You are reminded that Section 86(1)(a) of the Development Act, 1993 provides for a right of appeal to the Environment, Resources and Development Court against the imposition of conditions attaching to the decision **within two months** after receipt of this notice.

Please note that any appeal has to be lodged with the Court and **not** the Council.

For assistance in lodging an appeal it is suggested that you contact the Court which is located in the Sir Samuel Way Building, Victoria Square, Adelaide (phone 8204 0300).

DEVELOPMENT ACT 1993 - SECTION 42
CONDITIONS OF BUILDING RULES CONSENT

DEVELOPMENT NO:	170/0548/18/DT
BUILDING WORK:	To erect two double storey dwellings
SITE ADDRESS:	Lot (No.) 107 (#17) Davies Street, Tranmere
APPLICANT:	Domenic Condina
OWNER:	Mr Ndoj
CLASSIFICATION:	1a & 10a

CONDITIONS:

1. The owner of the land on which domestic building work is to be performed must ensure that a certificate of insurance in relation to that work is lodged with the Council if the value of the contract is $12,000 or more. [Refer to Reg Part 4, 21(2) (b) of Development Act and Division 3, Part 5 of Building Work Contractors Act 1995]. In the case of owner builders, the insurance applies to each individual contract with a value of $12,000 or more including (if applicable) any contract by a person with a builder's license engaged to supervise the building work.

NOTES:

The **Stamped Approved Plans** and Documents for the subject works described are attached to this Building Rules Consent notification form. It is not necessarily the case that every page of the approved documentation may be stamped, for example where pages form part of a broader document like an engineers report, only the main pages such as the front page and/or footing layout and/or site plan may be stamped. The entire document is accepted as approved.

The Conditions and Notes listed here reference Sections and Clauses from the Development Act 1993 (as amended), Regulations and Schedules from the Development Regulations 2008 plus the Building Code of Australia (BCA) relevant Australian Standards (AS) and Minister's Specifications (current to date of consent).

The Building Classification is determined in accordance with Part 1.3 of the BCA. Class 1a is a Dwelling or habitable part thereof, Class 1b is a boarding house, guest house or the like, Class 10a is a non-habitable building or part there of (e.g. Garage, Carport, Verandah, Shed etc), a Class 1b is a structure that is not a building (e.g. Swimming Pool, Fence, Retaining Wall etc) and a Class 10c is a private bushfire shelter.

A person(s) must not occupy a **Class 1a** building, as classified under the BCA, or an addition to a Class 1a building, that has not been completed in accordance with the development authorisation insofar as it relates to the performance of building work unless it complies with the requirements prescribed in Regulation 83A.

Regulation 83AB requires a written **Statement of Compliance** for Class 1a buildings to be completed by a licensed building work contractor (Part A) who has carried out the relevant work, or who was in charge of carrying out the relevant work. In the absence of a licensed building work contractor, a registered building work supervisor or a private certifier. The statement must also be signed by the owner of the subject property (Part B). The subject Statement of Compliance is attached.

The person(s) proposing to undertake building work on land (or who is in charge of such work) is warned of their obligation to give the Council notice at stages prescribed in **Regulation 74**. If the building owner is giving notice, the notice must include the name, address and telephone number of the person responsible for undertaking or in charge of the building work (a registered Building Work Supervisor or Private Certifier) and proposed to provide any statement required under Regulation 83AB.

For building work prescribed in **Regulation 75**, the building owner, must, at least 28 days before the building work is commenced cause to be served on the owner of the affected land or premises a notice of intention to perform the building work and the nature of that work, as required by Section 60.

The owner and/or builder are advised that it is their responsibility to determine the **location of property boundaries**. Where property boundaries are not able to be determined it is recommended that a licensed Land Surveyor be engaged to carry out this work. All set-off dimensions to be made off of the property boundaries. (Note: Any fence line located on a property is not necessarily the boundary line).

The owner and/or builder are advised that no portion of the building or structure (including footings, plumbing or the like) shall **encroach** the property boundary (unless a suitable agreement and approval has been obtained from the adjoining property owner and relevant authorities).

The owner and/or builder are advised that the location, design and capacity of the **stormwater** discharge at the property alignment should be approved by Council prior to site works commencing. The drainage system should be completed by the finish of construction of the building.

The owner and/or builder are advised that the method of **stormwater** disposal must not result in the entry of water into any building or on to an **adjoining property** (unless a suitable agreement and approval has been obtained from the adjoining property owner and relevant authorities).

The owner and/or builder are advised that the required **rainwater tanks** to be plumbed into the dwelling in accordance with AS3500 must be provided with an overflow device connected to the stormwater disposal system and mosquito proof, non-degradable screens on the inlet and overflow. Supporting structures must be proprietary products and / or comply with the relevant Australian Standards.

The works hereby approved utilizes a **"Grey Water"** system as an alternative water supply in accordance with the Performance Provisions of Part SA2.1 of the BCA (Vol. 2) shall be located and installed in accordance with the provisions of Council and Dept. of Health.

The owner's and/or builder's attention should be drawn to AS 3660.1 which sets out methods for implementation during construction, and minimising the risk to new buildings from damage to their structural members by subterranean termites by deterring concealed entry by **termites** from soil to the building. A barrier system constructed in accordance with this standard can not prevent termite attack, as barriers may be bridged or breached. Where termites bridge barriers the evidence may be detected during inspection, which needs to be carried out at intervals not exceeding 12 months to reduce the risk of termite damage. A durable notice shall be permanently fixed to the building in a prominent location such as within a meter box or the like indicating the method of protection and the date of installation of the system; and where a chemical barrier is used, its life expectancy as listed on the National Registration Authority label; and the need to maintain and inspect the system on a regular basis. The owner may also wish to seek advice regarding the potential for attack by termites to non-primary structural elements of the building and the precautions available.

The owner and/or builder are advised that the building work adjacent the **property boundary** and/or existing structures is proposed and this may compromise the effectiveness of the termite barrier. It is recommended that a physical termite barrier be installed in accordance with AS3660.1 and the manufacture's specifications and recommendations any where a visual inspection can not be made (e.g. boundary wall), where barriers may be breached by other structure or items or where new and old structures abut one another.

The **footings** have only been checked for **compliance with the minimum allowable requirements** prescribed in AS 2870. The owner is advised to refer to the footing construction report or seek advice from the Engineer in this matter.

The **owner's** attention should be drawn to Appendix B of AS 2870 'Performance Requirements and Foundation Maintenance'. Particular care should be exercised to ensure that the plumbing and perimeter paving is installed in accordance with the requirements of AS 2870 and the Engineer's details.

It should be noted that a **retaining wall** less than 1000mm high is not deemed development under Schedule 3 and will not be assessed for structural adequacy despite details that may be included in the approved documents. The Owner should however take note that under the provisions of Section 60 and Regulation 75 the associated excavation / filing on a site may be deemed to be building work which affects the stability of adjoining land and requires notice to be served on the adjoining (affected) property owner.

The assessment of the articulation or **control joints** in the masonry walls was based on construction details and location depicted in the engineers Site Investigation and Footing Construction Report. If there exists a discrepancy between the engineer's report and the architectural drawings or similar regarding the location of such joints, the engineers plan shall take precedence.

The assessment of **timber framing** has been checked for compliance with the minimum allowable requirements prescribed in AS1684. Unless otherwise noted the assessment was based on the understanding that the timber used for all structural elements has a minimum joint strength group of J4 or JD4 in accordance with AS1684.

The owner and/or builder is advised that **roof trusses** shall be erected, installed and braced in accordance with AS4440, the manufacturers specifications and good trade practice. It is recommended that regular inspection of the roof trusses, particularly at high load areas such as girder trusses, are conducted by a suitably qualified person as per Work Place Services Hazard Alert, July 2002.

The owner and/or builder are advised that all **glazing** shall be in accordance with AS1288, including safety glass for full height window, glazed doors, side panels and windows located next to bath/shower. They are further advised that consideration should also be given to the Energy Efficiency requirements when selecting glass as this may alter the type of glass required in certain locations.

The owner and/or builder are advised that eaves (with roof coverings and soffit linings), flues, chimneys, pipes, domestic fuel tanks, heating and cooling appliances, pool equipment or any other similar services constructed between a dwelling and the property boundary shall be non-combustible construction and not be built within 450mm of the allotment boundary in accordance with the provisions of the Part 3.7.1.7 of the BCA.

This Consent is issued on the understanding that the **proprietary type materials**, products or systems as specified either on architectural plans and specifications or engineering plans and specifications or similar documents are to be selected and installed in accordance with the manufacturer's specifications and the relevant standards.

This consent is based on the understanding that there are no **brush fences** located within 3m of the proposed building works.

The Energy Efficiency Report included with the approved documents have been received from an Independent Technical Expert as defined in Regulation 85. The report has been accepted to comply with the Building Rules in accordance with the provisions set out in Regulation 88.

PAYMENT REMITTANCE ADVICE

No payment is required on this Certificate

Please Note:

Please check that the property details shown on this Certificate are correct for the land being sold.

The amount payable on this Certificate is accurate as at the date of issue.

This Certificate is only valid for the financial year shown.

If the change of ownership will occur in the following financial year, you must obtain another Certificate after 30 June.

Payment should be made as part of the settlement process.

The amount payable on this Certificate must be paid in full even if only a portion of the subject land is being sold. RevenueSA cannot apportion the ESL.

If the amount payable is not paid in full, the purchaser may become liable for all of the outstanding ESL as at the date of settlement.

The owner of the land as at 12:01am on 1 July in the financial year of this Certificate will remain liable for any additional ESL accrued before the date of this Certificate, even if the amount payable on this Certificate has been paid.

Provision of this Certificate does not relieve the land owner of their responsibility to pay their Notice of ESL Assessment by the due date.

If the owner of the subject land is receiving an ESL pensioner concession but was not living in the property as their principal place of residence as at 12:01am on 1 July of the current financial year, or is now deceased, you must contact RevenueSA prior to settlement.

Land Tax Act 1936

CERTIFICATE OF LAND TAX PAYABLE

PAYMENT REMITTANCE ADVICE

No payment is required on this Certificate

Please Note:

Please check that the property details shown on this Certificate are correct for the land being sold.

This Certificate is only valid for the financial year shown.

If the change of ownership will occur in the following financial year, you must obtain another Certificate after 30 June.

Payment should be made as part of the settlement process.

The amount payable on this Certificate must be paid in full even if only a portion of the subject land is being sold. RevenueSA cannot apportion the land tax.

If the amount payable is not paid in full on or before the due date shown on this Certificate, the purchaser will not be released from liability of the whole amount of the land tax outstanding as at the date of settlement.

The owner of the land as at midnight on 30 June immediately before the financial year of this Certificate will remain liable for any additional land tax accrued before the date of this Certificate, even if the amount payable on this Certificate has been paid.

The amount payable on this Certificate is the land tax payable at the date of issue. However, land tax for a particular financial year may be reassessed at any time, changing the amount payable.

Should a reassessment occur after this Certificate has been paid in full, the purchaser will remain indemnified and will not be responsible for payment of the new land tax payable amount. The owner at the beginning of the relevant financial year will be responsible for payment of any additional land tax payable.

Should a reassessment occur after this Certificate has been issued but not paid in full, the purchaser will not be indemnified and may become responsible for payment of the new land tax payable amount.

Should a reassessment occur after this Certificate has been paid in full and the Certificate is subsequently updated, the purchaser will not be indemnified and may become responsible for payment of the new land tax payable amount.

Provision of this Certificate does not relieve the land owner of their responsibility to pay their Notice of Land Tax Assessment by the due date.

IMPORTANT NOTICE

SMOKE ALARM LEGISLATION

Legislation relating to smoke alarms came into force on the 1st day of February 1998.

- If the home you are purchasing was built on or after the 1st January 1995, then it should already have an operational mains powered smoke alarm installed. If not, it is the responsibility of the vendor to install it prior to settlement at the vendor's cost.

- If the home was built prior to 1st January 1995, but purchased by the vendor on or after 1st February 1998, then it should already have either an operational mains powered smoke alarm installed, or one powered by 10 year life, non-replaceable, non-removable permanently connected batteries. Again, it is the responsibility of the vendor to install such an alarm prior to settlement, and at the vendor's cost.

- In all other cases, the home you are buying must have at least, a battery operated smoke alarm which you are required to upgrade to mains power (or an alarm fitted with 10 year life, non-replaceable, non-removable permanently connected batteries) within six months of the date of purchase. It is recommended that at least one smoke alarm be installed on each floor of a multi storey dwelling.

The smoke alarms must be installed by a licensed electrician and must comply with the Australian Standard. A maximum penalty of $750.00 for a breach of the legislation applies.

Besides this penalty, there is also a risk that damage caused by fire to a dwelling, which does not have a smoke alarm installed as required under the legislation, may not be covered by insurance.
