Reason there are fewer than three comparable properties

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

A review of PDOL, realestate.com.au, Domain and agency records found only one property sold within two kilometres in the last six months that is reasonably comparable to the subject property. Other sales in this period differed materially in [land size, dwelling size, condition and property type] and would not provide a fair indication of value. The indicative selling price reflects this comparable sale and the agent's knowledge of current local market conditions.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
