Comparable property sales

These are the three most comparable properties to the unit type or class for sale that were sold **within two kilometres** of the property for sale **in the last six months**.

These properties were used to help determine the estimated selling price.

Reason there are fewer than three comparable properties for a unit type or class

☒ **I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.**

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:
[*Insert N/A if there were three comparable properties*]

The property is a consolidated site comprising two titles (5 Jean Avenue and 7 Jean Avenue) with a combined land area of approximately 1,528 m² and two existing dwellings, and it is being offered as a single sale with redevelopment potential. No sale of a comparable double-allotment site occurred within two kilometres of the property in the last six months. The sales in that period were of single allotments of approximately 690 to 790 m², which sold for approximately $1,190,000 to $1,500,000. The estimated selling price was therefore derived from those single-allotment sales: the indicative range of $2,900,000 to $3,190,000 is the combined estimated selling price of the two allotments (each $1,450,000 to $1,595,000), and those sales were not presented as comparable properties because they are not comparable in land area or price range.

Sale outcome

The sale price of each property within the unit type or class covered by this PPS must be included in this section within seven days after the unconditional sale unless an application for an exemption is pending or an exemption has been granted.
