Reason there are fewer than three comparable properties

X **I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.**

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

No suitable comparable properties were identified within the prescribed period and 5km radius due to the unique combination of land size, rural features and conservation restrictions of the property. Situated on approximately 52.07 hectares (128 acres), the property offers extensive grazing land, established fencing and frontage to the Gippsland Lakes, providing opportunities for recreational activities including fishing and boating. A portion of the land is also subject to a Trust for Nature covenant, further distinguishing it from surrounding rural properties. This combination of substantial acreage, waterfront access, grazing potential and conservation restrictions differs significantly from other properties sold in the surrounding area, resulting in no directly comparable sales being identified within the prescribed criteria.

Sale Outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
